SUMMARY

Enthusiastic Computer Science student with a keen interest in exploring technology and innovation. Strong problem-solving abilities and a proactive approach to learning and teamwork. Looking to apply my skills and academic knowledge in a dynamic environment to contribute effectively and grow professionally.

PROJECTS

FreelanceFinder Website

- Developed a Freelance Finder platform using MERN stack, enabling clients to connect with freelancers. Implemented user authentication, real-time chat, and job postings. Designed a responsive UI with React and optimized backend performance with Node.js and MongoDB. Led the team and managed project development efficiently.

Doctor Appointment Booking System | MERN Stack Project

- Developed a Hospital Doctor Appointment Booking System using the MERN stack, which allows patients to book appointments and doctors to manage their schedules efficiently. The platform features secure authentication, role-based access control, and a fully responsive design to ensure a smooth experience across all devices. I designed RESTful APIs for seamless interaction between the frontend and backend, while MongoDB is used to effectively manage and store user, doctor, and appointment data.

Personal Portfolio Website | HTML & CSS

- Developed a personal portfolio website using HTML and CSS to showcase my skills, projects, and achievements. It features a clean, responsive design with modern styling and smooth navigation. This project helped me strengthen my front-end development skills and build a professional online presence.
